PROFESSIONAL SUMMARY

C# and ASP.NET developer with experience across the full software development lifecycle, from internship to junior developer roles. Skilled in ASP.NET MVC, ASP.NET Core, Entity Framework, ASP.NET Identity, and SQL Server, in agile teams. C# is my core language, and I am now learning the MERN stack to grow into a full-stack developer. Curious, adaptable, and eager to keep learning.

TECHNICAL SKILLS

Languages: C#, HTML, CSS, JavaScript, jQuery

Frameworks: ASP.NET MVC, ASP.NET Core, ASP.NET Identity

Database: SQL Server, SSMS, Entity Framework (Code First & Database First)

Tools & Software: Git, GitHub, Microsoft Office

SOFT SKILLS

Creativity • Attention to Detail • Analytical Thinking • Communication • Perseverance

WORK EXPERIENCE

- Promoted from intern to Junior Developer upon successful internship completion
- Fixed bugs and implemented new features (loyalty card system, discount points) for Hotel Simplify using C# and jQuery
- Contributed to the early-stage development of Hotel Restro, a new hospitality software product

.NET Intern *(July 2022 – November 2022)*

Danfe Solutions Pvt. Ltd.

- Completed internship during final year of bachelor's studies
- Gained hands-on experience in .NET development in a professional environment

PERSONAL PROJECTS

Portfolio Website

Personal portfolio showcasing background, skills, and projects

Designed and developed a personal portfolio website presenting my background, technical skills, and project work. Continuously updated as new projects and experience are added.

utsavkhadgi100.com.np

Garage Business Website

Business website for a local automobile garage

Built a business website for a local automobile garage that presents its services, contact details, and business information to customers. Gives the garage an online presence so customers can find and contact it easily.

skautoworkshop.com.np

Indra Jatra Website

Cultural website built to spread information about the Newari community's culture and traditions, along with Jatra, which is authorized by the Management Committee of Indra Jatra.

ONGOING PROJECTS

MyPark

Parking Management Application: Application to track parking rent, payments, dues, and related records

AutoCare (formerly Marmat Sewa), FYP

Application for automobile workshops to manage customers, cost estimates, and service bookings, with a planned mobile version.

Dental Clinic Website (Ramir Dental Clinic)

Business website for a local dental clinic, presenting its services, contact details, and clinic information to patients.
